## AWARD ATTACHMENTS

Alaska Native Tribal Health Consortium Inc.

01472-02

1. Terms and Conditions

**Financial Assistance Award Terms and Conditions**  
**Between the Denali Commission and Alaska Native Tribal Health Consortium**  
**For Community Energy Efficiency**  
**Award No. 1472, Amendment 2**  
**April 2018**

All changes to the award conditions are noted below.

1. In Section 14 – Key Staff: replace Tashina Duttie with Jonathon Pierson.

In Section 15 – ANTHC Project Manager: replace Tashina Duttie with Jonathon Pierson; phone and e-mail are 907-729-3960; [jspierson@anthc.org](mailto:jspierson@anthc.org).

2. Modify the Scope of Work detailed in Attachment A to include the following:

Background: The award has funded the implementation of numerous energy efficiency measures in the communities of Anvik and Hughes. The majority of the work as specified in the scope has been completed. Remaining funding is available in both communities. In an effort to deliver as many energy efficiency improvements to the communities as possible, the following scope items are proposed to complete the project for Anvik and Hughes.

Anvik: ANTHC will complete the installation of the three electronic controls that are identified below. ANTHC will be completing the installation instead of RurAL CAP.

ANTHC will reconfigure the well pump system so that water drains back to the aquifer when the pump shuts off. This was identified by the community as a top priority.

ANTHC will evaluate the heat recovery system and make repairs if sufficient funds are available. If repair is not possible due to costs, ANTHC will report findings to the community to let them know what the next steps are for completion.

<b>WBS #</b>	<b>Scope of Work</b>	<b>Building</b>
2.1	Setback Thermostat (110v)	Washeteria
5.2	Occupancy Sensor - determine feasibility of installation	Community Hall
7.1	School Heating Controls - Replace and install setback thermostat	School
Added	Modify well pump system at water treatment plant to drain back to eliminate continued freezing.	Water Treatment Plant
Added	Determine heat recovery needs and repair if possible	AVEC to School

Hughes: ANTHC will complete the installation of the setback thermostat for the Washeteria.

The Tanana Chiefs Conference (TCC) is in the process of inventorying residential lighting. ANTHC will have TCC install LED lighting in residential homes under a Memorandum of Agreement.

ANTHC recommends replacing as many of the highest energy consuming residential refrigerators as possible (estimated between 5-10) as identified by TCC. This would include shipping the existing refrigerators out of the community for proper disposal.

Prior to starting any lighting or refrigerator replacement work the Denali Commission Energy Program Manager, the ANTHC Project Manager, and the TCC Project Manager will work together to determine the criteria for selecting the homes to receive these improvements. In addition to high energy consumption, the selection criteria will include items like homeowner match and preference for elders.

<b>WBS #</b>	<b>Scope of Work</b>	<b>Building</b>
10.1	Install Setback Thermostat (110v)	Washeteria
Added	Residential LED Installation	Residential Homes
Added	Residential Refrigerator Replacement	Residential Homes

3. The budget allocation for Anvik and Hughes will remain the same. Prior to proceeding with any energy efficiency activities for Anvik and Hughes, the Denali Commission Energy Program Manager and the ANTHC Project Manager shall meet to determine how the \$184,000 of remaining budget will be used. The results of that meeting will be documented in a memorandum that will be posted on the Commission's database.
4. ANTHC may request budget and scope of work changes within the respective Anvik and Hughes grant allocation. Any changes to the budget or scope will require prior written approval by the Denali Commission. An email from the Denali Commission may serve as prior written approval.

There are no other changes to the original Financial Assistance Award, as amended.
